

# Ontological Development For Computing With Words Based Systems

Filesize: 5.81 MB

## ***Reviews***

*I just started off reading this article pdf. It really is simplistic but shocks in the fifty percent of your ebook. You will not truly feel monotony at at any time of the time (that's what catalogues are for about when you request me).*

## ONTOLOGICAL DEVELOPMENT FOR COMPUTING WITH WORDS BASED SYSTEMS

LAP Lambert Academic Publishing Nov 2012, 2012. Taschenbuch. Book Condition: Neu. 220x150x6 mm. This item is printed on demand - Print on Demand Neuware - Computing with words(CW) is a new paradigm in soft computing proposed by Prof.Zadeh in 1999. This paradigm offered an approach to precise natural language (NL) propositions and more importantly doing computation and reasoning based on those precised information. Ontological methodology is placed in position of centrality in this paradigm for two reasons. Firstly it can help us to translate NL propositions to canonical form of CW ( $X \text{ is } R$ ) which is an essential obstacle in applying this theory. And more importantly, it can be perceived as an extension of semantic web towards fuzzy semantics web. Hence, this work is an effort in the juncture of semantic web and CW theory. 92 pp. Englisch.
