

NASA: Transportation and Space: Reuse and Recycle: Transportation

By National Aeronautics and Space Administration (NASA)

Bibliogov, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.When humans colonize space, they will need to adapt the technologies and processes of disposing and using waste and natural resources to overcome the challenges of the new environment. Some of the objectives of the 5E (Engage, Explore, Explain, Elaborate/Extend, Evaluate) lessons in this unit are: Explain that technological problems must be researched before they can be solved. Identify the natural and man-made resources existing in space. List available space resources and analyze their potential to generate a profit. Provide examples of how making decisions about the use of technology involves weighing the trade-offs between positive and negative effects. Develop and communicate a business plan that reuses discarded man-made resources. The unit includes a pre-/post- test and student sheets.

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Ally Reichel**

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).
