A GRAND VIEW OF EXISTENCE

Outskirts Press, United States, 2009. Paperback. Book Condition: New. 203 x 124 mm. Language: English . Brand New Book ***** Print on Demand *****.PERHAPS ONE OF THE MOST SIGNIFICANT BOOKS EVER WRITTEN In this book the author presents a composite picture of our existence, drawing upon the concepts of some of our greatest scientific and religious thinkers of all time. He discusses some commonly held beliefs, in both science and religion that may be erroneous, and offers other options or possibilities applying to them. This book discusses the following: - Our matter universe and all that it contains are only perceptions formed within our brain/mind of what is really out there. - The Creative Source of our entire universe, known to physicists as the Unified Field produces all sub-atomic particles and their forces that construct and maintain our entire matter universe. This pre-energy field of proxy waves is believed by physicists to be conscious, omnipotent, omnipresent, and omniscient, and lies beyond space and time-all characteristics of what we call, God. Science not only relates to religion; they compliment each other. - Every event occurs simultaneously in two opposite states. - All negative thoughts and actions within the human race -- such as prejudice, hate, anger, envy, greed, and wars are all created by the Ego of every human mind. However, we possess the power to overcome the Ego's directives by absolutely refusing to INITIATE and aggressive or harmful acts against another human being or their possessions. If the majority of humankind would follow this simple directive, it would result in continuing world peace and evolve humankind to a much higher level of existence. - Everything material that exists is made from particles that were produced at the Big Bang of creation, which then combines as stardust and continued constantly...
