

Aspects of CO2 Corrosion in Oil and Gas Industry

Filesize: 8.52 MB

Reviews

This pdf is fantastic. It really is basic but shocks inside the 50 % in the pdf. I realized this pdf from my i and dad encouraged this pdf to discover.

ASPECTS OF CO2 CORROSION IN OIL AND GAS INDUSTRY

[DOWNLOAD](#)

LAP Lambert Academic Publishing Jan 2016, 2016. Taschenbuch. Book Condition: Neu. 220x150x9 mm. This item is printed on demand - Print on Demand Neuware - Natural gas is most likely contains carbon dioxide as part from reservoir fluid composition, on other hand CO₂ can be injected for enhanced oil recovery purposes. As such, corrosion control in carbon dioxide containing media is area of concern for oil field industries. Process operating parameters, especially temperature, pressure and fluid composition, are generally contributing to corrosion behavior for such conditions. Extensive investigation studies had been carried out to understand and control CO₂ corrosion. CO₂ dissolves in oil wells produced water forming carbonic acid which in turn dissociates and decrease the solution pH. The nature of oxide/passive film resulted from a corrosion process contributes to the overall behavior of it as well as temperature and chemical composition of the aqueous media. Surfactants are most likely corrosion inhibitors employed in the petroleum industry to protect iron and steel equipment used in drilling, production, transport and refining of hydrocarbons. The efficiency of the applied corrosion inhibitor depends on its concentration and stability of the formed inhibition film on metal surface. 152 pp. Englisch.
