This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.

I m a registered nurse, a pharmaceutical scientist, a founding member of the Detroit Police Department s barely-legal Shadow Squad, and a walking case study in 21st century man problems. I like things calm and orderly. I have a soft spot for people, so I spend my days developing a formula to help cancer patients escape their suffering. By night I have a part-time partner and full-time guardian, Detective Jonas Rafe, fellow member of the Shadow Squad. He is as volatile and unpredictable as anything I ve ever dealt with in a lab. I m smart enough to protect myself when handling chemicals, but I m still learning when it comes to him. He s sweet when his mouth is closed, but there s no way to prepare for when it opens. In time, his actions speak louder than his words, and though I vowed to never put my trust in another cop, he makes me want to take chances. He s the law, and he wants to protect me. They all do. But I m neither as fragile nor as pure as he wants me to be. I m a nerd with a gun fetish. I m tired of observing, and it s time for me to be in on the action. When he finds out what I ve been up to in Detroit after dark, our relationship is tested, loyalties are divided,...
