Brand New Book ***** Print on Demand *****.Excerpt from Probatio Latina: A Series of Questions Designed to Test the Progress of Learners in the Latin Language This little book has been prepared mainly with the purpose of furnishing Teachers the means of readily testing the progress of their pupils in Latin. I presume it will be generally admitted that this can be better done, at least as regards exactness and breadth, by the examination of answers given in writing to printed questions, than by any sort of oral recitation. But, moreover, I feel convinced from my own experience that an examination of this kind operates most powerfully on the mental growth of the learner. It reveals to himself his short-comings, with a clearness equaled by nothing else in his school-work, and it forces him to form the habit of bracing his powers to attack, often with success, questions which at first seem wholly beyond his grasp. I am not acquainted with any book which is constructed exactly on the plan here adopted. There are some books which contain questions adapted to the course of particular grammars, and others again which are made up of a collection of papers actually proposed in different school or college examinations. The adoption of the former plan seemed likely to restrict materially the usefulness of the book, where so many different grammars are in use; and the latter would involve the necessity of repeating again and again questions on the same topic, and would thereby cause the book to reach an unwieldy size if it should aim at anything like completeness.
